"From Within" a Top 5 track at Christian Rock Radio

(New York, NY) - **The Chemistry** has announced that they will join Flyleaf on a national tour starting June 25th in Tampa, FL at The Orpheum. *The Chemistry*, the band's self-titled debut, was released on April 19th and was produced by Kevin Cadogan (ex-guitarist and songwriter of Third Eye Blind) at the famed recording studio The Plant in Sausalito. The first single from the album "*From Within*" recently reached #4 on R&R's Christian Rock Chart. The video (as well as the audio) for "*From Within*" is also featured on the Tsunami Relief Fund compilation being sold at dates along the 2005 Vans Warped Tour this summer.

The band has been traversing the country in their 38-foot long RV since the release of their debut, most recently appearing at The Bamboozle Festival in New Jersey where they performed alongside fellow rockers Brand New, Thrice, Finch, and more.
